## RAL ACRYLIC PREMIUM

Soppec Colors RAL Acrylic Premium is an innovative acrylic paint of premium quality.

Acrylic RAL Premium has a very strong adhesion on metal, very good coverage and a fast drying time. With a low odour and only one regulatory icon, it's very easy and comfortable to use Soppec Acrylic RAL Premium.

### Advantages & benefits

- Used directly on metal
- High coverage
- Fast drying
- Low odour
- Interior and exterior

**SURFACES :**  
wood, metal, terracotta, stone,  
PVC, etc.

**2 m<sup>2</sup>**  
**400 mL**  
Coverage

**Touch drying**  
15 min\*

**Full drying**  
24h\*

\*20°C ambient temperature

GREY

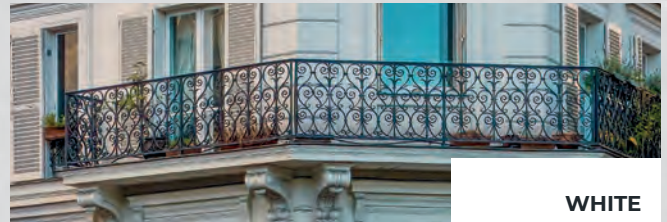

Interior / Exterior

2 m<sup>2</sup>  
400 mL

### RUST CONVERTER

- Primaire for rusted surfaces
- Stops and protects from rust
- Improve adhesion and coverage of the finishing paint
- Curative and preventive using

WHITE

Interior / Exterior

2 m<sup>2</sup>  
400 mL

### PRIMER ANTI RUST

- Primaire for non rusted surfaces
- Protects from rust
- Improve adhesion and coverage of the finishing paint
- Preventive using

GREY

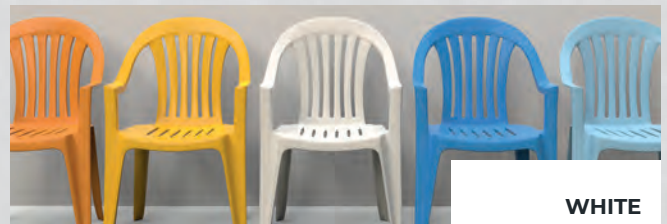

Interior / Exterior

2 m<sup>2</sup>  
400 mL

### PRIMER

- Professional/industrial quality
- Improve adhesion and coverage
- Multi surfaces
- High coverage

WHITE

Interior / Exterior

2 m<sup>2</sup>  
400 mL

### PRIMER PLASTIC

- Improve adhesion on many plastic
- Improve adhesion and coverage with a better finish
- High coverage

ZINC MATT

ALU GLOSS

Destination Exterior

2<sup>m<sup>2</sup></sup>  
400mL

### GALVA ZINC MATT 97%

- With 97% of zinc
- Primer high quality with a long lasting protection to prevent corrosion
- Very high conductivity and heat resistance up to 360°C
- Polyvalent : various application and high resistance

Destination Exterior

2<sup>m<sup>2</sup></sup>  
400mL

### GALVA ZINC ALU GLOSS

- Leaving the surface with a newly-galvanised appearance
- Primer for cold galvanising with protection against corrosion
- High gloss finish
- Heat resistant up to 250°C

ZINC MATT

ALU GLOSS

Destination Exterior

2<sup>m<sup>2</sup></sup>  
400mL

### GALVA RAPID

- For minor repairs, resulting in a shiny new-metal appearance
- Quick-drying cold-galvanizing
- Heat resistant up to 110°C

WHITE

Application  
360°

2 m<sup>2</sup>  
400 mL

### STAIN MASKING PAINT

- Masks stains such as: grease marks, water stains, solvent residues, tar or glue marks
- Suitable as a primer before painting walls or ceilings
- Easy to apply, application 360°

**SURFACES : wood, metal, terracotta, stone, PVC, etc.**

Touch drying  
20 min\*

ambient  
temperature

WHITE

Destination  
Interior

1 m<sup>2</sup>  
500 mL

### SPACKSPRAY

- Creates a "cement" effect finish
- Polyurethane dispersion based paint
- Particularly useful to touch-up coatings or renders
- Can be recoated

Touch drying  
1h\*

Full drying  
24h\*

\*20°C  
ambient  
temperature

DARK GREY MATT

BLACK MATT

Heat resistance  
650°C

2 m<sup>2</sup>  
400 mL

### HEAT RESISTANT PAINT

- Adapted for surfaces exposed to very high temperatures such as: steam pipes, engines, exhaust pipes, radiators, etc.
- Heat resistant up to 650°C
- High coverage, Fast drying

**SURFACES : wood, metal, terracotta, stone, PVC, etc.**

Touch drying  
15 min\*

Full drying  
24h\*

\*20°C  
ambient  
temperature

WHITE MATT

Application  
360°

2 m<sup>2</sup>  
400 mL

### RADIATOR PAINT

- Adapted for radiators, convectors, towel rails and pipework
- Heat resistant up to 120°C
- High coverage, Fast drying, non yellowing

Touch drying  
15min\*

Full drying  
24h\*

\*20°C  
ambient  
temperature

**WHITE GLOSS**

Interior / Exterior

**PEINTURE ÉLECTROMÉNAGER**

- Adapted for domestic home appliance and metal enameled surfaces
- Scratch and petrol resistant, easy to clean
- Non yellowing - UV resistance
- High coverage, Fast drying

Touch drying  
15 min\*

Full drying  
24h\*

\*20°C  
ambient  
temperature
